CHOOSE YOUR NEXT FREE RESOURCE

Start with your preparation stage. Move on when a resource has produced a concrete study action.

1 STARTING OUT

01 / Orientation

ACER preparation videos + the GAMSAT exam overview. Understand the skills being assessed.

▼

2 NEED A PLAN

02 / Planning

Study Syllabus + Study Planner. Turn the exam into topic priorities and a weekly schedule.

▼

3 FOUND A WEAKNESS

03 / Skill building

Use section guides, free online courses, university notes, the Essay Guide, Quote Generator or Physics Formula Sheet.

▼

4 READY TO APPLY IT

04 / Practice and feedback

Use free practice questions and worked solutions, then the Free Trial to review reasoning, accuracy and timing.

Next: official benchmarking. ACER e-booklets and interactive practice tests are the official exam-style benchmark. They are paid resources, not another free stage.
